Succinct elevator pitch		3										
Good team introduction/roles		3										
Emphatize		5										
Clear validation through interviews	5											
Identified who to talk to	2											
Define		5										
Succinct validated problem	5											
Succinct problem	3											
Still being finalized	1											
Ideate		5										
Solution and Impelementation path in place	5											
Solution approach understood	3											
Solution ideas in place	1											
prototype/mvp		5										
We can play with prototypes/mvps	5											
we can have guided interaction	4											
We can interact with a design	3											
Team can demo	2											
Just slides	1											
Testing		5										
Actual customer testing feedback testimonials	5											
Actual customer feedback videos	3											
Design Quality		5										
Prototype quality		5										
Segmentation Targeting		5										
Multiple segments identified with a roadmap of targeted expansion	5											
Focused on narrow segment only	3											
Positioning		5										
Clear value and USP	5											
more articulated as features	3											
Go To Market												
Initial customer users identified		3										
Marketing plan in place		3										
Ecosystem - all customers/users/partners/personas well identified		5										
Competitive Landscape												
Alternatives identified		2										
USP/differentiation is clear		2										
Leveraging existing platforms for development		2										
Unit Economics		5										
Short term and long term UE understood, pricing validated	5											
UE only one time horizon is understood	3											
Rough numbers	1											
Pricing Socialized		2										
Team		5										
All necessary skills in place	5											
Knows how to get the necessary skill	3											
Some skill gaps	1											
Other												
Quality of slides		5										
Team dynamics		5										
Presentation energy/skill		5										
Project Vision		25
